

Dear Parents,

As we gear up for the new academic year at Valley Forge Academy Qatar (VFAQ), we want to ensure that our students are well-equipped for successful learning experiences. With the integration of technology playing a vital role in education, we'd like to share the IT requirements for students in Grade 6 and above.

An expectation at VFAQ is that students in Grade 6 and above have access to a Microsoft Surface Pro device to enhance their engagement and participation in the digital learning environment. The Surface Pro offers versatility, portability, and compatibility with the tools and platforms we utilize in our curriculum.

By having a Microsoft Surface Pro, students will be able to:

1. **Access Learning Materials:** Easily access digital textbooks, assignments, and resources from various subjects including access to the various learning platforms like **Schoology** etc.
2. **Interactive Learning:** Participate in interactive lessons, collaborate with peers, and engage in online discussions seamlessly.
3. **Digital Note-taking:** Take organized and efficient digital notes during classes, which can be synced across devices.
4. **Creative Projects:** Utilize creative software for projects, presentations, and multimedia assignments.
5. **Efficient Communication:** Stay connected with teachers and classmates through online communication platforms.

To ensure a smooth start to the academic year, we kindly request that you provide your child with a charged Surface Pro device. We understand that personal circumstances may vary, and we are here to support any families who may need assistance in acquiring the necessary technology. Please feel free to reach out to our IT department if you have any questions or concerns.

We believe that embracing technology in education will empower our students to become adept digital learners, ready to succeed in an increasingly interconnected world. Thank you for your continued partnership in creating a vibrant and enriching learning experience for our students.

Warm regards,

VFAQ Administration
