

Dear Parents,

We hope this message finds you well. We would like to inform you about important changes we have made to our drop-off points at Valley Forge Academy Qatar (VFAQ). These adjustments have been carefully considered to improve traffic flow and create a more organized morning routine for everyone involved.

To help you understand these changes better, we have created an attached diagram that outlines the updated drop-off points. Each point has been color-coded for your convenience:

**Yellow: Primary / Blue: Secondary / Green: Kindergarten**

Please take a moment to review the attached diagram, which provides a visual representation of the new drop-off points. We believe that this adjustment will help alleviate congestion and streamline the drop-off process, ensuring a safe and efficient start to each day.

We kindly request your cooperation in adhering to these designated drop-off points. By doing so, you contribute significantly to the overall safety and smooth functioning of our campus.

Should you have any questions or need further clarification regarding the attached diagram or the new drop-off points, please don't hesitate to contact our Operations Office. We are here to assist you.

Warm regards,

VFAQ Administration
